

## Core 320/833: Understanding & Working with Children and Youth Who Have Been Sexually Exploited

---

**WHAT:** A five-day (Winnipeg) or three-day (rural Manitoba) workshop that will give you the understanding and skills to work with children and youth who have been sexually exploited/trafficked in the sex trade.

**WHY:** This workshop is necessary to address the realities of sexually exploited and trafficked children, youth, and adults in Canada and will help work towards accomplishing the long-term goal of the Manitoba Provincial Strategy “Tracia’s Trust” to abolish sexual exploitation. Training for all systems, including child welfare, justice, education and health, is critical to this goal’s accomplishment.

### THE TRAINING WILL HELP YOU TO:

- Build awareness and understanding of your own strengths, biases, values, etc.
- Clarify important issues, dispel myths and misconceptions and challenge conventional views and perspectives
- Increase your understanding of the historical impacts of colonization and other factors that have contributed to the sexual exploitation of children/youth
- Gain knowledge on current sex trade/trafficking legislation
- Assess risk and level of exploitation
- Understand how predators (pimps/traffickers/gangs) exploit children/youth
- Intervene effectively with children/youth at different stages of exploitation
- Employ Stages of Change and Harm Reduction strategies
- Identify the barriers associated with exiting the sex trade and adapt treatments
- Increase knowledge and awareness of the range of services and resources that have been designed to intervene, protect and support children/youth
